Two rodmen Boys in Niagara Rapids.

Niagara Falls, N. Y., June 23.—Don-aid Roscoe, 10 years old, and Hubert Moore, 9 years old, both of Buffalo, went to their death in a small boat in the whirlpool rapids, while hundreds of men watched helpless from the The boys were playing in a flat bottom scow, half a mile above the rapids, when the rope holding the boat broke and they were carried out into the stream and down the river.

Up to the time the boat reached mid-stream it made little progress. After it passed the bridges the current car-ried it rapidly towards the rapids. The bridgemen did not see the boat until it was close at hand. Then they called fire headquarters and two companies were sent to save the lads

Hundreds swarmed to the river banks in a vain effort to rescue. The boys, realizing their fate, stood up as the boat neared the edge of the roaring whirlpool and shook hands in farewell. A second later they were engulfed by a great wave in the rapids. The boat The boat shot out of sight. One of the boys was credit us to neglect. seen for a moment struggling in the rushing waters and then both disap-Neither body has been recov

bers and in the committee rooms is likely to become a burden as the sea son lengthens, and that sideration of personal convenience an sideration of personal convenience an personal comfort, perhaps, in the cases of some of us, considerations of per-sonal health even, dictate an early conclusion of the deliberations of the ses sion; but there are occasions of publi duty when these things which touch us privately seem very small; when the work to be done is so pressing and so fraught with big consequence that we know that we are not at liberty to weigh against it any point of personal sacrifice. We are now in the sacrifice of the sacrifice of the sacrifice of the sacrifice. sacrifice. We are now in the presence of such an occasion. It is absolutely imperative that we should give the business men of this country a banking and currency system by means of which they can make use of the freedom of enterprise and of individual initiative which we are about to be-

We are about to set them free; we must not leave them without the tools throu of action when they are free. We are nois. about to set them free by removing the trammels of the protective tariff. Ever frammels of the protective tarin. Ever since the Civil War they have waited for this emancipation and for free opportunities it will bring with it. It has been reserved for us to give it to them. Some fell in love, indeed, with the slothful security of their dependence upon the government; some took ad-vantage of the shelter of nursery to set up a mimic mastery of their own within its walls. Now both the tonic within its walls. Now both the and the discipline of liberty and maturity are to ensue. There will be some readjustments of purpose and point of view. There will follow a point of view. There will follow a period of expansion and new enterprise, freshly conceived. It is for us to de-government for its recognition for the termine now whether it shall be rapid and facile and of easy accomplish-sidered probable that the choice for and facile and of easy accomplish-sidered probable that the choice for ment. This it can not be unless the this mission will fall on Dr. Wu Ting Fang. former Chinese minister at deal with the new circumstances are to have at hand and ready for use the instrumentalities and conveniences of free enterprise which independent men need when acting on their own in-

To See What Business Needs. It is not enough to strike the shackles from business. The duty of states manship is not negative merely. It is constructive also. We must show that manship is not negative merely. It is constructive also. We must show that we understand what business needs and that we know how to supply it. No man, however casual and superficial his observation of the conditions now prevailing in the country, can fail to see that one of the chief things business needs now, and will need increasingly as it gains in scope and vigor in the years immediately ahead

readily to vitalize its credit, corporate and individual, and its originative brains. What will it profit us to be free if we are not to have the heat of us, is the proper means by which free if we are not to have the best free if we are not to have the best and most accessible instrumentalities of commerce and enterprise? What will it profit us to be quit of one kind of monopolyif we were to remain in the grip of another and more effective kind? How are we to gain and keep the confidence of the business community unless we show that we know how both to aid and protect it? What how both to aid and protect it? Kansas City, June 23.—Kenneth
Lewis, aged 22, Loren Welker, 18, Cora
Glass, 18, and Mary Secrist, all of Kansas City, Kan, were thrown into the
sas City, Kan, were thrown i that. Shall we not act upon the knowledge? Do we not know how to act upon it? If a man can not make his far behind, the National League race motor boat in which they were riding assets available at pleasure, his assets was capsized. They were swept down the stream and all were drowned.

Police from this city recovered the boat a few hours after the accident, and it was identified as belonging to Lewis Terris.

Terris

> needs, and that it will immediately need it more than ever.
>
> The only question is, When shall we supply it—now, or later, after the demands shall have become reproaches that we were so dull and so slow? Shall we hasten to change the fariff laws and then be laggards about making it possible and easy for the country to take advantage of that question. We must act now, at whatever sacrifice to ourselves. It is a duty which the circumstances forbid us to postpone. I should be recreant to my deepest convictions of public obligations did I not press it upon you with solemn and urgent insistence.

Responsive to Credit.

ever saw it before—much more clear-y than when the last legislative pro-posals on the subject were made. We must have a currency, not rigid as they have of late. to sound credit, the expanding and contracting credits of everyday trans-actions, the normal ebb and flow of personal and corporate dealings. Our banking laws must mobilize reserves; must not permit the concentration anywhere in a few hands of the monctary resources of the country or their use for speculative purposes in such volume as to hinder or impede or stand in the way of other more legitimate, more fruitful uses. And the control of the system of banking and of issue which our new laws are to set up must be public, not private, must be vested in the government itself, so that the banks may be the instruments, not the masters, of business and of individual enterprise and initiative. mate, more fruitful uses. And the control of the system of banking and initiative.

The committees of the congress to dispassionate study to the means of tered by Pelkey was introduced by the accomplishing these objects. They defense, have honored me by consulting me. They are ready to suggest action. I have come to you, as the head of the government and the responsible leader of the party in power, to urge ac-tion now, while there is time to serve the country deliberately and as we should, in a clear air of common coun-I believe that you share this onviction. I therefore appeal to you with confidence. I am at your service without reserve to play my part in any way you may call upon me to play it in this great enterprise of ex-

WILSON WILL STAND BEHIND IT Dakota. Tells Washington Correspondents of Attitude on Currency Bill.

Washington, June 23.—President Wilson freely discussed the Glass cur-rency bill with Washington corres-pondents today at the regular semi-Wilson freely discussed the Glass currency bill with Washington correspondents today at the regular semi-weekly conference and made it plain that he intends to stand as firmly behind it as he does behind the tariff bill. The general principles of the bill, Mr. Wilson considers clearly defensible but he epects there will be amendments for detail. Mr. Wilson is inclined to believe that the bankers themselves eventually would be glad of direction of a federal reserve theart of which they have no control.

St. Louis, June 28.—The Kansas City hat he regular semination and the spared for pastures. There are no roads, only footpaths, and in some ports of China passengers are transported overland by wheelbarrow.

The great industries outside of the production of food for home consumption, are the raising of tea and silk worms and the mulberry trees for the worms and the mulberry trees for the worms to feed upon. While few agrivation, are the raising of tea and silk mile in 1:45 5-8, against the old mark of two minutes flat.

The points scored:

The points scored:

The points scored: board of which they have no control, but which would properly safeguard their interests. The president made it clear that he had no fear of politics in that connection. So far as the rein that connection. So far as the re-discounting features of the bill are concerned the president regards the provision to compel federal reserve banks of one region to rediscount assets of a reserve bank of another, as imperative to prevent concentration of funds in the hands of a few.

Storm Broke One Hour After Illinoi Church Appeal.

St. Louis, June 23 .- An hour after prayers for rain had been ordered in the churches of Belleville, Ill., a suburb near here, a heavy rainstorm broke the two months' drought throughout Missouri and Southern Illinois. A hallstorm completely blan-keted the lawns of Forest park with ice while streets here were flooded for several hours. Lightning of erable damage to property. Lightning did consid-

of Coffey county. It is understood they represent about 1,000 stockholders in Kansas, Nebraska, Iowa and other central Mississippl valley states. In connection with the resignation it was said arrangements were being made whereby the control of the company would pass into other hands and the stockholders be given a chance "to run the business their way."

CHINA AND ITS PEOPLE

Newest Republic a Wonderland of Which the World Knows Little.

China, the oldest civilization, the largest nation and the world's youngest republic! The authentic history of China as an integral empire goes back to about 1000 B. C., but the names of dynasties reaching back 2,000 years anced than that of the European or most attentively at the moment, however, while in the junior organization sever, while in the junior organization several explanations for this condition it also is a third place club—the Bostons—that just now is making the strongest showing.

The Red Sox, champions of the world, apparently have struck their galt at last and the American League is taking notice. Jake Stahl's complete the power during the modern era to isolate China and to discourage advances on the part of foreign nations seeking bination and with its old infield lack. commercial relations. Another hindrance has been the custom of ancestor worship, the reverence for old customs and habits, and so a horror of all innovations. It speaks well for the organization of the Standard Oll company that kerosene oil is the only well known product of foreign origin in the country. country

As early as the seventh century A D. the Chinese manufactured paper and printed in a crude sort of way. The baking of porcelain and the weaving of silk, some processes connected with which have never been improved dropped five of seven, and the leaders were only able to get a three and three split, would do wonders toward tightening up what has looked like a lopsided race, even if the Boston speeders should not fare as well as they have of late.

END PELKEY HEARING.

With which have never been improved upon, antedate records. One of the wonders of the world and a remarkable feat of engineering, the great wall of China, was built in the third century B. C. as a protection against the raids of the Tartars. It stretches for nearly 1,500 miles along the northern border of China proper, often reaching a height of 50 feet, and supported by frequent garrison towers, and was so thoroughly constructed that portions of it today remain in good condition. good condition.

Intensive agriculture and horticul-ture and the processes of irrigation and fertilizing have been highly de-veloped; in China proper, in the val-leys of the Yangtse and the Hoang-Calgary, June 23.—When the trial leys of the Yangtse and the Hoang-of Arthur Pelkey, the pugllist, who is charged with manslaughter in causing 7,000 to 8,000 feet above sea level, and two or three crops a year are harman death of Luther McCarty, in the

These valleys support a denser These valleys support a denser population than any similar area in the world. If all the people in the United States and 40,000,000 more were crowded into the state of Texas the population would be no denser than it is in southern China. The Yangtse is one of the principal thoroughfares of China and is navigable for nearly 2,000 miles, but the Hoang-Ho is shallow and frequently over-Ho is shallow and frequently over-flows its banks. In the last 2,500 years it has changed its course eleven times, and the different channels it has occupied are hundreds of miles apart. The great loss of life—on one occasion reaching f.000.000—and the damage to property resulting from the floods accompanying these changes have given to the river the name of

"China's Sorrow."

The natural waterways, supplemented by the Grand canal, which is 1,200 years old, furnish elaborate means of intercommunication, and the tonnage of China's inland commerce is estimated larger than the combined tonnage of all the rest of the world. The boats and methods of handling the carroes however, are ber 25, has been filled by booking a contest with the University of North Dakota.
